

Key Investor Information

This document provides key information for investors about this fund. These are not marketing materials. Providing this information is a legal requirement to facilitate understanding of the nature and risks involved in investing in this fund. Reading this document is recommended to the investor so that he can make an informed investment decision.

Superfund UCITS Green Financial Futures, Sub-Fund of SUPERFUND OPEN-END INVESTMENT PORTFOLIO FUND (SUPERFUND PORTFELO-WY) RFi 931. Category A

The fund is managed by SUPERFUND TFI S.A.

Investment goals and policy

The investment objective of Superfund Ucits Green Financial Futures is to increase the value of its assets as a result of the increase in the value of investments, which it will strive for through direct or indirect investments in various financial assets - shares, bonds, units of UCITS investment funds, money market instruments, derivatives or deposits. The Sub-Fund will use a wide diversification of investments, both regionally (investments in EU countries and other OECD countries) and in terms of asset classes included in the sub-fund's portfolio. Superfund Ucits Green Financial Futures will strive to deliver a total return under all market conditions by using an „absolute return” strategy.

The Sub-Fund will invest at least 50% of the value of its assets in securities or money market instruments acquired outside the Republic of Poland in Euro or denominated in Euro.

Share of the individual classes of the assets constituting the composition the Sub-Fund's portfolio will be subjected to the decision of the Sub-Fund manager, which will take into account, in particular, the economic conditions and the situation on the financial markets, as well as the level of liquidity, security and profitability of financial instruments

Due to the composition of the investment portfolio, the value of net assets of the sub-fund, and therefore the value of the participation units of the Sub-Fund may be subjected to high volatility.

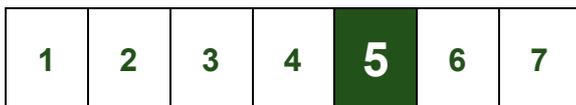

The Superfund Ucits Green Financial Futures subfund is redeeming participation units from participants (investors), at their request, on the valuation days. Valuation days of the Sub-Fund are the days when the session is held on the Warsaw Stock Exchange.

The base currency of the Sub-Fund will be Euro, which will allow clients who want to accumulate and multiply funds in this currency, invest without exposure to foreign exchange risk.

The Sub-Fund does not pay dividends. Disbursement of funds from the sub-fund to the participant occurs only as a result of the execution of the order to redeem participation units. Increase in the value of the sub-fund's assets and the value of the participation unit is solely due to the investment of Sub-Fund's assets in the investment categories provided for in the statute.

This Sub-Fund may not be suitable for investors who may want to withdraw their money within 3-year time.

Risk and profit profile

Lower risk / Potential lower profits

Higher risk / Potential higher profits

Funds of 5th category have historically been characterized by a medium-high value of the volatility parameter. The assignment to this category results from investing the assets of the Sub-Fund primarily in equity instruments, which may lead to high volatility in the value of the participation unit of the Sub-Fund.

The synthetic risk ratio has been calculated based on the valuations of the Sub-Fund's participation unit in the last 5 years, with the synthetic risk indicator calculated for the pre-commencement period based on the volatility of the model portfolio composed in 100% of valuations of the Superfund SFIO Green Sub-Fund. These data do not have to be a reliable indication of the risk profile and profit of the Sub-Fund in the future.

In particular, there is no certainty that the indicated risk and profit category remains unchanged and that the assignment of the Sub-Fund to a specific category will not change.

The following risk factors are related to the investment in the Sub-Fund and are not correctly reflected by the synthetic risk indicator and may therefore be the cause of additional losses:

Market risk is related to fluctuations in the prices of financial instruments, including primarily share prices. This risk cannot be eliminated and has a direct impact on the participant's investment value in the Sub-Fund.

Counterparty (Business Partner) risk is related to the possibility of contractor's failure to perform contractual obligations.

Liquidity risk is related to the inability to value or sell financial instruments at the desired time and place.

Settlement risk is related to the possibility of late settlement of transactions, which may result in additional costs incurred by the Sub-Fund.

The risk associated with the storage of assets results from the fact that the assets of the Sub-Fund are held by the Depositary and partly by sub-depositaries. Possible problems or errors of these institutions may affect the ability to dispose of assets or their value.

Fees

One-time fees collected before or after the investment

Purchasing fee	4,00%*
----------------	--------

This is the maximum amount that can be taken out of Your funds before investing

Redemption fee	none
----------------	------

Fees charged from the Sub-Fund during the year

Current charges	0,00%*
-----------------	--------

Fees charged from the Sub-Fund under certain specific conditions

Performance fees	1,86%**
------------------	---------

*Since the day the sub-fund was established until further notice, Company does not charge any purchasing fees nor management fees. All other operating costs of the sub-fund are covered by the Company until further notice.

**TFI charges a variable fee of 30% of the rate of return achieved only in case of a positive difference between the current valuation and the highest valuation achieved in the history of the Sub-fund until the day before last valuation.

The fees borne by the investor serve to cover the operating costs of the Sub-Fund, including distribution and marketing costs. These fees reduce the potential increase of the investment in the Sub-Fund.

In certain cases, the amount of the purchase fee may be lower than specified in the table. Detailed information can be obtained from the financial advisor or fund distributor.

Listed Fees charged from the Sub-Fund during the year are based on expenses from ended fiscal year in December 2020.

Since the day the sub-fund was established until further notice, Company does not charge any purchasing fees nor management fees. All other operating costs of the sub-fund are covered by the Company until further notice.

Detailed information on fees can be found in the information prospectus in sub-chapter 3.38.
